STRETCH HOODERS

The Best Pallet Wrapping System:

The Stretch Hood pallet wrapping system ensures maximum load stability and protection by applying a tubular film that stretches to fit the load's contour. Unlike traditional heat shrink or wrapping films, it's applied vertically and tightens at the base for a secure seal. This system offers major savings in materials, faster wrapping speeds, improved transport safety, and a premium finish that adds value to your palletized products.

- High energy efficiency system that contributes to reducing plastic and CO2 emissions
- Film holds the load with a combination of vertical and horizontal forces
- Protects against ; Dust, Moisture, Rain, UV and all adverse external conditions
- Waterproof protection
- Fastest packaging process for your End-of-line
- lower film consumption per pallet
- improves brand image and enables code readability

For All Industries:

Building
Materials

Agriculture

Food & Beverage

Chemicals

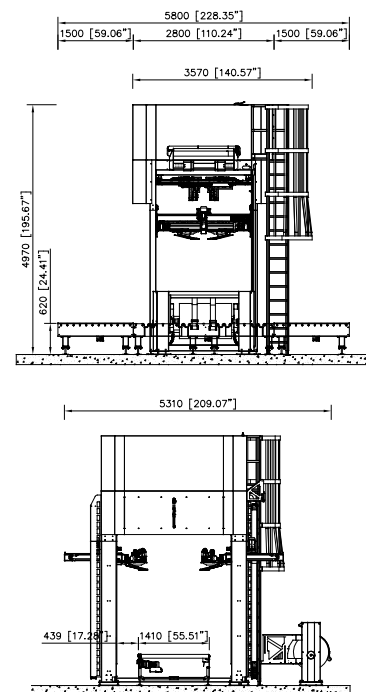

Appliances

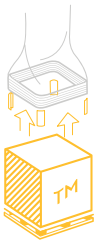

Your Goods

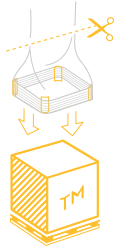

Machine Specifications:	
Standard Production Capacity	Max. 120 pallets/hour (check other models for higher production)
Minimum Load Dimensions	600 x 600 mm / 24 x 24 inch. (adaptable to other dimensions)
Maximum Load Dimensions / Load Height	SH-Core: 1,300 x 1,250 mm / 50 x 50 inch. SH-Max: 3,800 x 1,250 mm / 150 x 50 inch. 15 - 100 inch. (adaptable to other dimensions)
Maximum Load Weight	2,000 kg. / 4,400 lbs. (adaptable to custom loads)
Number of Reels	1 to 3

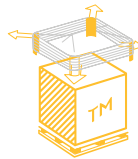

Model: SH-CORE

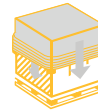

Bag Formation

Cut & Welding

Stretching

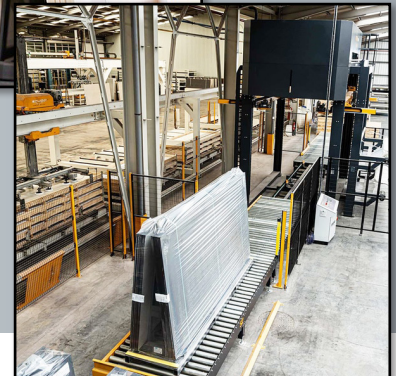

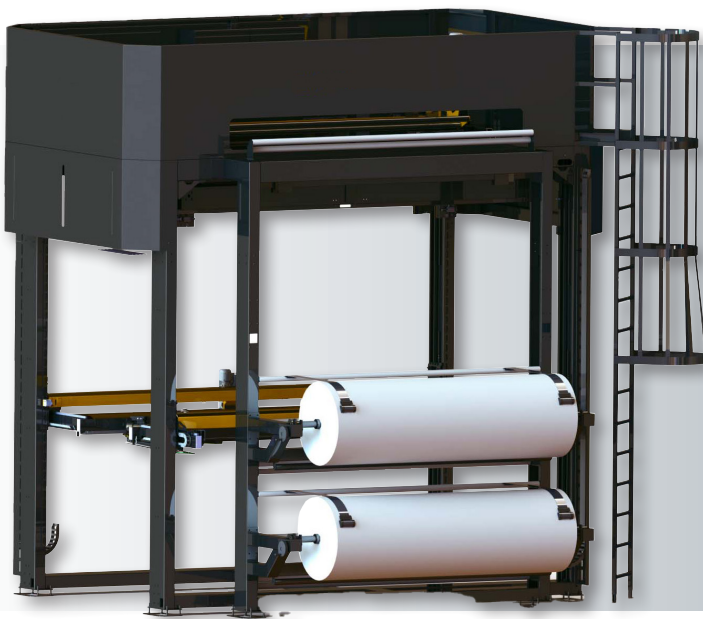

Hooding

Total Protection

Model: SH-MAX

Handle It, has been dedicated to providing the market with competitively priced, highquality products since 1976. Handle It continues to expand on the current line of products as well as develop custom engineered solutions to meet customer's specific applications. Handle It is represented by a network of dealers both nationally and internationally.

Our Brand Promise

"Handle It with Confidence: Delivering quality packaging equipment and warehouse guarding solutions. We promise exceptional support, ensuring your efficient operations."

Why Choose Handle-It?

We prioritize your end-of-line packaging. From the initial consultation to project completion, we walk you through each step with clear communication and expert guidance. We value our Dealers and provide guidance in sales and service training ensuring they are equipped with all the information necessary to meet their customer's needs.

For customized projects, we take the time to thoroughly understand your goals, offer personalized advice, and recommend the best possible solutions to ensure an outcome that exceeds your expectations. Our dedication to quality and customer satisfaction is what sets us apart.

Equipment Support & Service

Handle It, Inc. stands behind the equipment we sell and supply. We stock replacement parts in our Milwaukee, WI warehouse, so we can ensure your operations are up and running as quickly as possible.

Our technical support team is available during business hours to walk customers through any issues or questions.
